

NAME: Jay Lowe
PARTY: Republican
SEEKING: Georgia House of Representatives,
District 95

Why are you seeking your office?

My family and I are vested in this community. We've been here for years and plan to stay here. I believe my background and my work in the private sector has prepared me to serve the district. As a conservative and family man, I believe I can represent the people of this community.

What do you expect to accomplish if elected?

Work and pass the Georgia Fair Tax. This is long overdue and I believe Georgia is ready for this major tax reform. This bill alone would have an incredible impact on Georgia's economy and in the lives of our residents

What distinguishes your candidacy?

I do not work for any special interest groups or the political establishment. I work for the people. I know my community, this district and its people. Unlike my opponent, I have not been groomed by politicians to fill this role.

What are the key issues in your race?

As I stated before, The Georgia FairTax. I will also work to implement Term Limits. I believe term limits reduce the impact of lobbyists on our elected officials among other things. Medical Cannabis for people who are suffering is another issue. I have many more issues that I feel are important that can be found on votejaylowe.com

Pick one issue. Expand on how you will address it.

Propose term limits. I am not here to be a career politician. I will term limit myself and work on legislation to term limit all members of the state house and senate. I will do this by working with my colleagues to bring this issue to a vote.

Give a 100 word summary of your background.

I am the Managing Partner of an architectural sign company with operations in Norcross & Peachtree Corners along with several other small businesses in Peachtree Corners. This district is more than just my residence; this is the place I made home, it's where I worship with my family, where I work and run my businesses, and where my kids attend school. I am invested in the future of this
