

NAME: Mary Kay Bacallao
PARTY: Republican
SEEKING: U. S. Senate

Why are you seeking your office?

I have been reading the state and federal legislation for years. I am making good on a promise I made to run against the incumbent if he voted for the new education bill, because it uses federal bribe money to dictate what is taught and tested in schools. Most of the bills passed in the last 10-15 years have taken away the freedoms that we have come to enjoy as Americans. People are waking up. They see what is happening and they want someone who will read the bills and vote no. That is what I am all about.

What do you expect to accomplish if elected?

I am going to work with the rest of Congress to repeal freedom killing legislation that has passed in recent years. I am going to get us out of debt by refusing to allow taxpayer money to be used to bribe the states into doing the federal will. I am going to introduce legislation to reform the tax code. It should not be used to manipulate people or favor one industry or business over another. I am planning on shutting down all the unconstitutional federal agencies that have been used to over-regulate the American people. I will vote no.

What distinguishes your candidacy?

Mary Kay's Pledge

1. I will only vote for just and constitutional laws.
2. I will work to repeal unjust and unconstitutional laws.
3. I will read the proposed laws before casting a vote.
4. I will protect our national sovereignty.
5. I will respect state sovereignty.
6. I will maintain a strong national defense.
7. I will always tell the truth.
8. I will make sure that the government does not interfere with the churches.
9. I will ensure equal protection under the law. (The 14th Amendment)
10. I will keep the President and the Supreme Court in check.

What are the key issues in your race?

Wherever you look, you will find the federal will comes into play. With the new education bill (ESSA), the workforce bill (WIOA), and the healthcare bill, there are few areas of our life that are free from federal influence. As of March 3, 2016, our state had to submit a workforce plan to the U.S. Department of Labor. Who made us

accountable to the federal government? We should decide what we want to do for a living. The federal government is telling us we have to buy insurance. Where is that in the Constitution? It is not there.

Pick one issue. Expand on how you will address it.

Look at every financial meltdown in recent years. It can all be traced back to bad legislation and poor regulations associated with that legislation: the mortgage bubble, bailouts, over spending in Congress, accumulation of massive debt, and now the student loan bubble. These are all things that the incumbent has signed his name to. It will not get better on its own. We need someone who reads the bills. We need someone who understands that government is not the solution; it has proven itself to be the problem, time and time again. I will work to repeal bad legislation.

Give a 100 word summary of your background.

Dr. Mary Kay Bacallao has been a professor at a university in Georgia since 2003, teaching courses in Math, Science, and Technology for teachers in Douglasville, Henry County, Atlanta, and Newnan. She has been married since 1989 to Aldo Bacallao and they have four children. She taught elementary school for 9 years. She was elected to serve on the Fayette County School Board in 2012 where she studied state and federal legislation related to education. She began working with others to find ways to stop the federal takeover of local schools. This group is called the Educational Freedom Coalition. www.EducationalFreedomCoalition.com
