To represent our community with integrity, honesty and hard work.

Unify republicans and democrats to work together in order to create safer, more prosperous and happier GA.

**What are the key issues in your race?**

GA gets D- in ethics due to our state government being too secretive. We cannot have a secretive government in an open democratic society. We need to improve ethics in GA by repealing the exemption of legislators from the open records law.

We need more local high paying jobs – I intend in working with the business community to bring the largest employee owned alternative energy manufacturing jobs to our district.

Education – We spend 40% of our budget on K-12 and we still get C- nationwide. I will work with local communities to ensure that they are properly funded, improve teaching...(100)

**Pick one issue. Expand on how you will address it.**

One of the key ways that I address any issue is by looking at the root cause and fixing it at the root level. Ethics and transparency is the root cause of many of our problems. By eliminating exemption of legislators from the open records law, enforcing our current ethics laws and expanding punishment for breaching ethics laws will ensure that our government is working for the public interest and not special interest.
