**Why are you seeking your office?**

I'm running to bring principles back to politics, and remove our current establishment politician. Woodall is the DC Propagandist to the GA7 District, and he rates an F from The New American, Conservative Review, Heritage Foundation and FreedomWorks for his voting and spending record. He is a product of Washington and has been up there since 1994. He doesn't understand what it's like to have a private sector job or run a business. He has proven time and time again that he supports deficit spending and growing the debt of this nation which compromises our children's future. I'm running to

**What do you expect to accomplish if elected?**

Using the office as a national podium, we will advocate for Constitutionally limited government and aim to be a voice for everyday hardworking individuals, families and businesses. Our focus will be to reach people about their God-given birth rights in an effort to grow future generations that will restore and improve the United States. While in office we will introduce bills to abolish the IRS and pass the FairTax, repeal, not replace Obamacare and stop the disgraceful treatment of veterans by the VA.

**What distinguishes your candidacy?**

I am the only candidate in the race that will always vote for a reduction in the size, scope, and intrusiveness of the Federal government. I am the only candidate who teaches the Constitution and its history. I am the only combat-decorated veteran, giving me a special set of skills that include; asymmetrical warfare & counterinsurgency. I am the only candidate endorsed by Georgia Right To Life, The Republican Liberty Caucus, Constitutional Grassroots Movement and Georgia Republican Assembly. I am the only candidate that is advocating the Non-Aggression Principle both internationally and domestically, and Austrian Economic policies in line with (100)

**How can we improve school safety?**

Remove the Federal government completely from the equation, and secure our schools which currently are soft, target rich environments as we secure our schools with armed guards. Stop drugging our children, especially our young boys with dangerous pharmaceuticals. Remove zero tolerance so that teachers may love each

student as an individual requires. Teach love, respect, manners and ID kids that seem to be at risk and take action to correct their course. Stop emasculating male students. Adopt school choice. Stop mandatory testing. Most importantly teach prayer and faith.

**Pick one issue. Expand on how you will address it.**

Our nation spends more on Military offense than the next 12 nations combined and there is no mission that honors the sacrifice of our service men and women to date. Meanwhile, our government has completely ignored defense. The only acceptable mission for our military is destroying the enemy with overwhelming force, and coming home. It's incumbent that we bring our troops home and keep them here until we have a Congressional declaration of war. The endless deployments, nation building, rules of engagement and terrible treatment when they return must stop. I will fight to have our military secure our southern (100)
