

**NAME: Lynette Howard**  
**PARTY: Republican**  
**SEEKING: County Commission, District 2**

**Why are you seeking your office?**

I still have passion for Gwinnett County and the great people that live, work, play and learn here.

**What do you expect to accomplish if elected?**

I will continue to make water and transportation a top priority. We have to apply the "Gwinnett Standard" and work to solve the vast needs of our transportation system and integrate new smart technology to make our system more efficient. The ATL Regional Transit will stand up in January 2019. Gwinnett has to be engaged on many levels.

**What distinguishes your candidacy?**

My roots are from the homeowners. I was president of my homeowners association and then president for 7 years of United Peachtree Civic Association. I care about my community. People all across my district want to get involved and I love getting them connected.

**What are the key issues in your race?**

Water, transportation, safety, ethics, and fiscal responsibility

**Pick one issue. Expand on how you will address it.**

Safety is a top priority; insuring that our first responders have the best equipment and training to do their job at a market rate of pay. I will continue support programs that improve delivery of service like the Crime Free Multi Housing program that reduced crime 50% in the first year. Active shooter training for our fire department and police jurisdictions with the FBI will continue. We have to address the opioid overdose crisis. We have to equip all vehicles with Naloxone which saves lives. I will continue to connect neighborhoods with the great people that are charged with protecting....(100).

**Please give a 100 word summary on your background**

I have taken training class opportunities to be a more effective county commissioner. I am the most trained commissioner in the state of Georgia through ACCG. I have been a homeowner president and the president of United Peachtree Corners Civic Association (UPCCA) for over 10 years. I care deeply for my community. My experience has taught me

to listen to communities. When a community cares, you can find me working with them. Together we have a voice.
