Why do you want to get elected? (Limit 100 words)

I entered this election because I was asked to by multiple members of this community. They noticed what I represented and what was accomplished during my time previously as a Council Member. I entered this race to give Braselton's citizens and businesses fair representation and be their voice on Braselton's Town Council. I will pose no conflicts of interest if elected. I am a lifelong Braselton resident and love my town. Braselton's history must be protected, but we also need to protect our future by not approving every rezoning and annexation request which may come to a vote.
