I've been a public employee for many years and have served Georgians well. I'm seeking Loganville City Council so that I can work more closely with my community and make a difference in how the city grows. As a civil engineer I have experience identifying issues, working with stakeholders and developing transportation solutions. I want to utilize my experience to serve the citizens of Loganville to the best of my ability. My wife and I came to Loganville to raise our children and I want to ensure our city is a good place to live, play and work.
