Why do you want to get elected? (Limit 100 words) I have served the community for six years. Working with the City Council team, we have been able to make great progress in Sugar Hill - "Building Community and Place". Sugar Hill is a great place to live. I have never lived in a community that works together for a common vision. The schools, churches and city are all working towards a common goal of community and economic development. I hope to be able to continue being a part of the Mayor and Council team and serving the Sugar Hill community.
