

NAME: Brad Raffensperger
PARTY: Republican
SEEKING: Secretary of State

1. Why are you seeking your office?

I believe only American Citizens should be voting in our elections. That is why I am the first Secretary of State to conduct a full citizenship check of our voter file, ensuring only Americans are voting in our elections. I am the only candidate for Secretary of State to pass real election integrity legislation, and the only Secretary of State to ever conduct a full audit of Georgia's ballots.

2. What do you expect to accomplish if elected?

The conservative think tank, The Heritage Foundation recently named Georgia the #1 state in the country for election integrity, and there is a reason for that. I am the first Secretary of State to conduct a full audit of our elections. And I am the first Secretary of State to work with other states to share voter data such as death records to ensure that Georgia continues to have some of the cleanest voter lists in the country. I am also the first Secretary of State to conduct a full citizenship check of our voter rolls, ensuring that only American (100).

3. What distinguishes your candidacy?

I am the only candidate for Secretary of State who has successfully passed election integrity legislation ensuring that our elections are secure in an ever-changing threat environment. In 2019, I became the first Secretary of State to successfully ban ballot harvesting and the only Secretary of State to pass a photo ID requirement for all forms of voting, including absentee ballots.

4. Pick any one issue. Expand on how you will address it.

Washington politicians have failed you. Our election system is under attack, and liberals across the country are pushing to add noncitizens to voter rolls—and Washington Congressman, Jody Hice, has done nothing to stop it.

I believe only American citizens should be voting in our elections. That is why I called on the General Assembly to pass a constitutional amendment ensuring that President Biden and Stacey Abrams can NEVER force the state of Georgia to add noncitizens to our voter rolls.

5. What are your ideas on curbing all the many area-wide shooting?

My office backs the blue. When it comes to investigations of elections to corporation and charity fraud, my office takes its role seriously when it comes to investigating and prosecuting fraud cases.

6. Please give a 100 word summary on your background

Secretary of State Brad Raffensperger is a structural engineer and lifelong conservative who moved to Georgia in 1982 and founded Tendon Systems, a provider of high-strength steel for construction projects. **As the CEO of a thriving company, Brad uses business principles to run the office of Georgia Secretary of State**, including purchasing and deploying modern voting machines across the entire state that could be audited and verified, including a full recount by hand, if necessary. Voter registration has soared under Brad's tenure, with 95% of eligible Georgians registered to vote, and Georgia's voter lists being recognized as the cleanest in (100)
