

NAME: Lisa McCoy
PARTY: Republican
SEEKING: Congress, 7th District

1. Why are you seeking your office?

I am running for the future of this country, for my kids, for your kids, and for all Americans. We need to battle against the policies destroying this country and the forces trying to divide us. Right now, it seems that the American dream is in jeopardy. I want my children and all young Americans to grow up in the same country that I did with limitless possibilities. The United States of America is the greatest country in the world, but our nation is at a crossroads. So, we all need to fight for the right direction in 2022!

2. What do you expect to accomplish if elected?

There are many goals I want to accomplish when I'm elected including lowering taxes, inflation, gas prices, and reducing our soaring national debt. I want to safeguard our freedoms. No more tyrannical mandates, lockdowns, cancel culture, and censorship. I want to secure our borders and ensure immigration laws are enforced and improved. I want to ensure safe communities for all. I want to lower healthcare costs so it is affordable for all Americans. I plan to protect our environment and defend women's rights. I will do all this and more for the future of this great nation of ours!

3. What distinguishes your candidacy?

I do not see the following issues highlighted by my primary opponents. I am for protecting our environment and supporting women's rights. Protecting our environment is an essential issue for the future of Georgia, this country and this planet we all call home. We need to focus on sustainable growth and minimizing environmental impacts by doing a better job of reducing, reusing, and recycling for a clean and healthy environment. I will always be a defender of women's rights. Whether in the workplace, in sports, or in their everyday lives, women and girls should always have a fair playing field.

4. Pick any one issue. Expand on how you will address it.

There is no greater importance than securing our borders for the safety and security of our country. We cannot continue on the path of unlimited immigration. Everyone cannot live here or everything people come here for will cease to exist. This country would be left broke and barren. First, I want to ensure that we enforce the immigration laws that already exist. Then, I want to reform laws that result in chain immigration and the manipulation of our asylum and visa laws. We need both a physical border and a virtual one by making E-Verify required for all businesses nationwide.

5. What are your ideas on curbing all the many area-wide shooting?

One of my key issues is safe communities. We need police in our communities for the safety and protection of all citizens. Crime is on the rise throughout our country as a direct result of the movement to defund and demonize police. We need to be tough on crime, not lenient. We need to get violent criminals off the streets and keep them off. We need more police, not less. Our police aim to serve and protect people, risking their own lives every day. We need to support our local police and recruit more. Always Back the Blue!

6. Please give a 100 word summary on your background.

I am originally from Michigan, but I have lived in Georgia now for the majority of my life, 27 years now, and love it! I am married with two teenage sons. I moved to Georgia for my first teaching job. I was an elementary school teacher for twenty years. Currently, I am a college professor teaching aspiring and practicing teachers. I have four college degrees including a doctorate. Yes, I am an overachiever! So, I will work very hard for you in Congress. I've always had a passion for politics and a deep desire to help and to serve.
